## **Discoveriture Solutions Utilizes processMax® to Achieve CMMI®-DEV Level 3 Rating**

**Vienna, Virginia (August 5, 2009) --** **pragma** SYSTEMS CORPORATION announced that Discoveriture Solutions achieved Level 3 of the Software Engineering Institute's Capability Maturity Model® for Development (CMMI-DEV 1.2) with the use of **processMax 3i**. Discoveriture Solutions is a premier information technology solution provider to the insurance and healthcare industries, and has recently been named by Forrester as a 'hot insurance technology' company to watch.

Sanjay Kanungo, Discoveriture's Executive Vice President, commented, "From the time we started our process improvement initiative, it took us roughly 12 months to achieve a successful Level 3 appraisal that spanned multiple geographic locations. Implementing **processMax** helped us accomplish this with uncommon speed and flair. But more importantly, thanks to **processMax**, we now have in place a modern process improvement framework that is proven to be flexible, extensible and scalable to meet a variety of our current and future needs."

Using **processMax**, systems and software development organizations are able to manage their projects and process deployment in guaranteed compliance with CMMI-DEV. Using a role-based approach to project management, **processMax** provides managers and engineers with step-by-step procedures, integrated document management, automated workflow, automated measurement and reporting, and integration with Microsoft Project.

"We are pleased to welcome Discoveriture Solutions to the select group of companies that have achieved CMMI-DEV Level 3." said Donn Milton, Executive Vice President of **pragma** SYSTEMS. "With **processMax**, Discoveriture was able to achieve compliance in a fraction of the time and expense required with traditional approaches."

### **About pragma SYSTEMS**

**pragma** SYSTEMS CORPORATION ([www.pragmasystems.com](http://www.pragmasystems.com)) has been in the software process improvement and assessment business since 1990, and is the market leader in software management products that comply with the Software Engineering Institute's (SEI) Capability Maturity Model Integration® (CMMI®). **pragma** SYSTEMS was one of the first companies licensed by SEI to perform software process assessments. **pragma** SYSTEMS uses its own products and is a CMM Level 3 development company, as determined by two independent SEI-licensed Lead Evaluators. **processMax** and related services are on the GSA Schedule. **pragma** SYSTEMS CORPORATION is headquartered in Vienna, Virginia.

### **About Discoveriture Solutions**

Discoveriture Solutions ([www.discoveriture.com](http://www.discoveriture.com)) is an insurance and healthcare industry-focused information technology solutions and service provider headquartered in Phoenix, Arizona. Founded in 2002, Discoveriture currently serves global markets with offices in the US, UK and India. Discoveriture's technology professionals combine a thorough understanding of business processes with industry best practices to conceive and execute value added technology solutions for its clients.
